

Sprint 3 Report
Slug Hub
7/15/2019

Actions to stop doing:

- Not updating Scrum Board task on time

Actions to start doing:

- Understand scrum better, and implement scrum practices
 - Update documentation to github on time
 - Daily scrum meetings (almost achieve)
 - Scrum master planning meeting out (setting aside first 15 min, last 15 min for example)
- Think about how long it should take to do something before actually doing it ()

Actions to keep doing:

- Meet as often as often as we have been
- Documentation at the end of each meeting (sprint chart)
- Everybody doing their specific task when assigned
- Great teamwork, and democratic process for each design choice

Work completed/not completed:

Completed Stories:

- (21) As a user, I want good looking buttons on the homescreen that look like the apple application icons, so I feel like the app is quality
- (21) As a developer, I want buttons for all the functions I built, so the user can use all the software that I built for the user
- (8) As a user, I want the UCSC plaque for the skeleton, so the app feels welcoming and UCSC themed
- (21) As a student, I want options to have a good, clear layout, so I can navigate the whole app easily
- (13) As a student, I want to render photos quickly, so that I can enjoy using the app more
- (21) As a user, I want a nice welcoming loading screen on the app startup, for a good UX
- (13) As a user, I want to app to not have any unnecessary content, so it is less bloated
- (8) As a developer, I want to finish the work I started (calendar, map), so I didn't waste any of my time.
- (21) As a developer, I would like to automate sharing files across a server, so that it can save time
- (89) As a developer, I would like the code to be clean and consistent, so that I can continue the project in the future.
- (34) As a student, I want a button to know what sports are available, so that I can join a sport.
- (8) As a student, I want to see an academic calendar on my homescreen, so I can know when important deadlines and school events (OPERS fest, concerts) are approaching

- (34) As a developer, I want a server to run all of the app's data intensive programs, so that the app feels light to use.
- (21) As a user, I want the theme of this app to be UCSC related, so that I know this app was made specifically for UCSC

Not Completed Stories:

None

Scrum Board:

The Scrum Board for 'SlugHub Sprint 3' displays a backlog of user stories and their completion status. The board is organized into columns representing different stages of the sprint process. Each card represents a user story, including its description, completion status, and assigned team members.

Top Screenshot:

- Column 1:**
 - (21) As a user, I want good looking buttons on the homescreen that look like the apple application icons, so I feel like the app is quality. **Completed** (1 hr) find the right icons for each category. Assigned: J.
 - (1 hr) find the right margins and spacing between icons, for all screen displays. **Completed**. Assigned: J.
- Column 2:**
 - (21) As a developer, I want buttons for all the functions I built, so the user can use all the software that I built for the user. **Completed** (1 hr) Creating buttons on homepage. Assigned: J.
 - (1 hr) Creating navigation buttons for advising. **Completed**. Assigned: LT.
 - (1hr) Creating buttons for CS_BS Page. **Completed**. Assigned: N.
 - (1hr) Creating buttons for JBE Page. **Completed**. Assigned: ZL.
