

Sprint 1 Report
Slug Hub
7/9/2019

Actions to stop doing:

- Rushing into tasks
- Not documenting certain things in the Scrum practice

Actions to start doing:

- Understand scrum better, and implement scrum practices
 - Documentation at the end of each meeting (sprint chart)
 - Daily scrum meetings
 - Scrum master planning meeting out (setting aside first 15 min, last 15 min for example)
- Think about how long it should take to do something before actually doing it

Actions to keep doing:

- Meet as often as often as we have been
- Everybody doing their specific task when assigned
- Great teamwork, and democratic process for each design choice

Work completed/not completed:

Completed Stories:

(34) As a Developer, I want to use React Native, so that my project can be scalable and cross-platform.

(34) As a student, I want an app with a clear homepage and easy to access subpages, so I can access the information I need easily.

(8) As a student, I want a navigation bar, back button, and home button, so I can navigate the app comfortably

(89) As a student, I want a button on the homepage that takes me to advising resources for my major (which includes course offerings and required classes), so I can figure out my academic plan.

Not Completed Stories:

(55) As a student, I want my login information to be private and encrypted, so I feel safe using this app

(3) As a student, I want to be able to access canvas and portal in one click from the homepage, so that I can save time

Work completion rate:

165/223 = 74%
